

DAVIES

TIRE MOUNTING LUBRICANT

- **OUTSTANDING LUBRICITY**
- **STRONG "CLING" EFFECT**
- **HELPS STOP CORROSION**
- **EASY TO USE**
- **ECONOMICAL**
- **SAFE ON HANDS**

Davies "TIRE-LUBE #120" is a field-proven product that does an outstanding job in mounting tires to rims. Special lubricity additives are used to allow tire-mounting ease. **"TIRE LUBE #120"** exhibits strong "clinging" tendency, to allow the lubricant to stay where it belongs to work, and not run away. Corrosion inhibitors are incorporated to help inhibit rim corrosion.

Davies "TIRE-LUBE #120" is generally used as is to take advantage of the "cling" feature, however some customers may wish to dilute the product 50/50 with water, for economy. Dilution will be individually determined by rim conditions and mounting procedures.

Available in drums, pails, & gallon bottles
